Dear Nicholas,

**Reply to ASX information Request – 1 February 2010**

Find following the information relating to the December 2009 quarter as requested.

Please note that this information was not included in the released quarterly as in the opinion of the Company the data was not representative of normal production due to the interruptions to the treatment plant which was explained in previous announcements to the ASX.

1. Ounce of Gold Produced for the December quarter

Gold produced at Engenho (Brazil) for the quarter was 4,948 ounces and gold produced from the Torrecilas mine in Peru was 1,560 ounces.

2. The Cash cost per ounce of gold produced for the Quarter.

Cash cost per ounce from Engenho was A\$883.68 per ounce and from Torrecilas A\$786.44 per ounce (note this is trial mining and not representative of expected costs).

3, 4 &5 Number of tonnes treated through the Mill, average grade and recovery.

Tonnes milled at Engenho were 46,591 tonnes at 3.26 g/t and 93.2% recovery

Tonnes toll treated from the Torrecilas mine were 2,644 at 19.46 g/t.

Yours faithfully,

Joe Mobilia  
Company Secretary
